THE PROVERBIAL "CHECK IS IN THE MAIL"
A client owes you money and wants to mail-in a check. Get the information by phone and the money is in your account ...Next Day!

"YOU SENT A BILL? ...I NEVER RECEIVED IT!"
A customer wants to pay for your services monthly. You send a bill, call and remind or hope that the client even pays. Set up recurring billing and deduct funds from the person's account every month.

"WHAT DO YOU MEAN MY CHECK BOUNCED?"
Re submit NSF checks as often as you need.

Check / RDC Processing

Tangible Cost Factors with banks

1. **Cost of Returned Checks**

2. **Time it takes to make out deposit tickets and verify accuracy.**

3. **Time it takes to drive to and back from the bank.**

4. **Time it takes to wait in line and transact with the teller.**

5. **Lost office productivity... stopping work, getting out of the flow and restarting again.**

6. **Time/cost it takes for accountant to re-enter your deposit items into your accounting system and generate reports.**

THE SOFTWARE SAVES MONEY AND PAYS FOR ITSELF!

Other Cost Factors to consider

- Lost revenue due to increased float times.
- Lost revenue due to checks getting stale-possibly going NSF.
- Lost revenue - time to receive returned checks
- Lost revenue - inability to collect on returned checks

Easy and Convenient

1. **Provides** = Check Scanning- Cloud based

2. **Scans** = Conventional paper checks and transforms them into an electronic deposit

3. **Submits** = The check as an electronic deposit, the funds will be available within 24 hours in most cases

4. **Stores** = Check Data and Check Images

5. **Eliminate** = Duplicate accounting entries

6. **Provides** = Future research and retrieval

7. **Allows** = Resubmission of NSF Checks

8. **Generate** = Robust Data Reports
